

walkingwhiledrawing
Janis Janis

Das Projekt walkingwhiledrawing erkundet Möglichkeiten der Darstellung subjektiver und intuitiver Wahrnehmung von Bewegung durch den Raum. Mithilfe einer Drawingmaschine wird während des Gehens die Umgebung zeichnerisch dokumentiert und anschließend makuliert. In der virtuellen Raumübersicht. Durch das Zusammenstellen verschiedener Spaziergänge entsteht eine VR-Landschaft mit multiplen Perspektiven des untersuchten Ortes. Die hier gezeigte Arbeit setzt sich aus neuen Spaziergängen in der Panoptix-Direktur zusammen.

walking lines

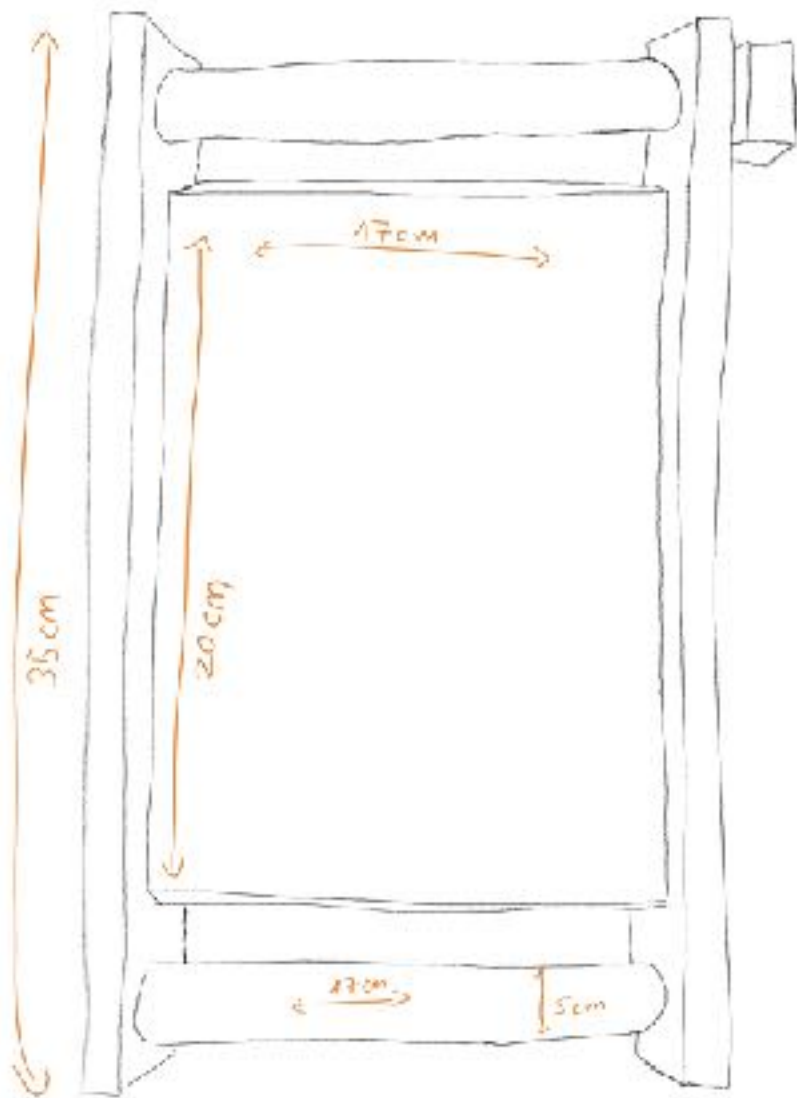

2020 Vilnius

Observing my memory
and perception of
distance on my daily
walk to Vilnius Art
Academy.

drawingmachine

drawing tool to draw while walking.

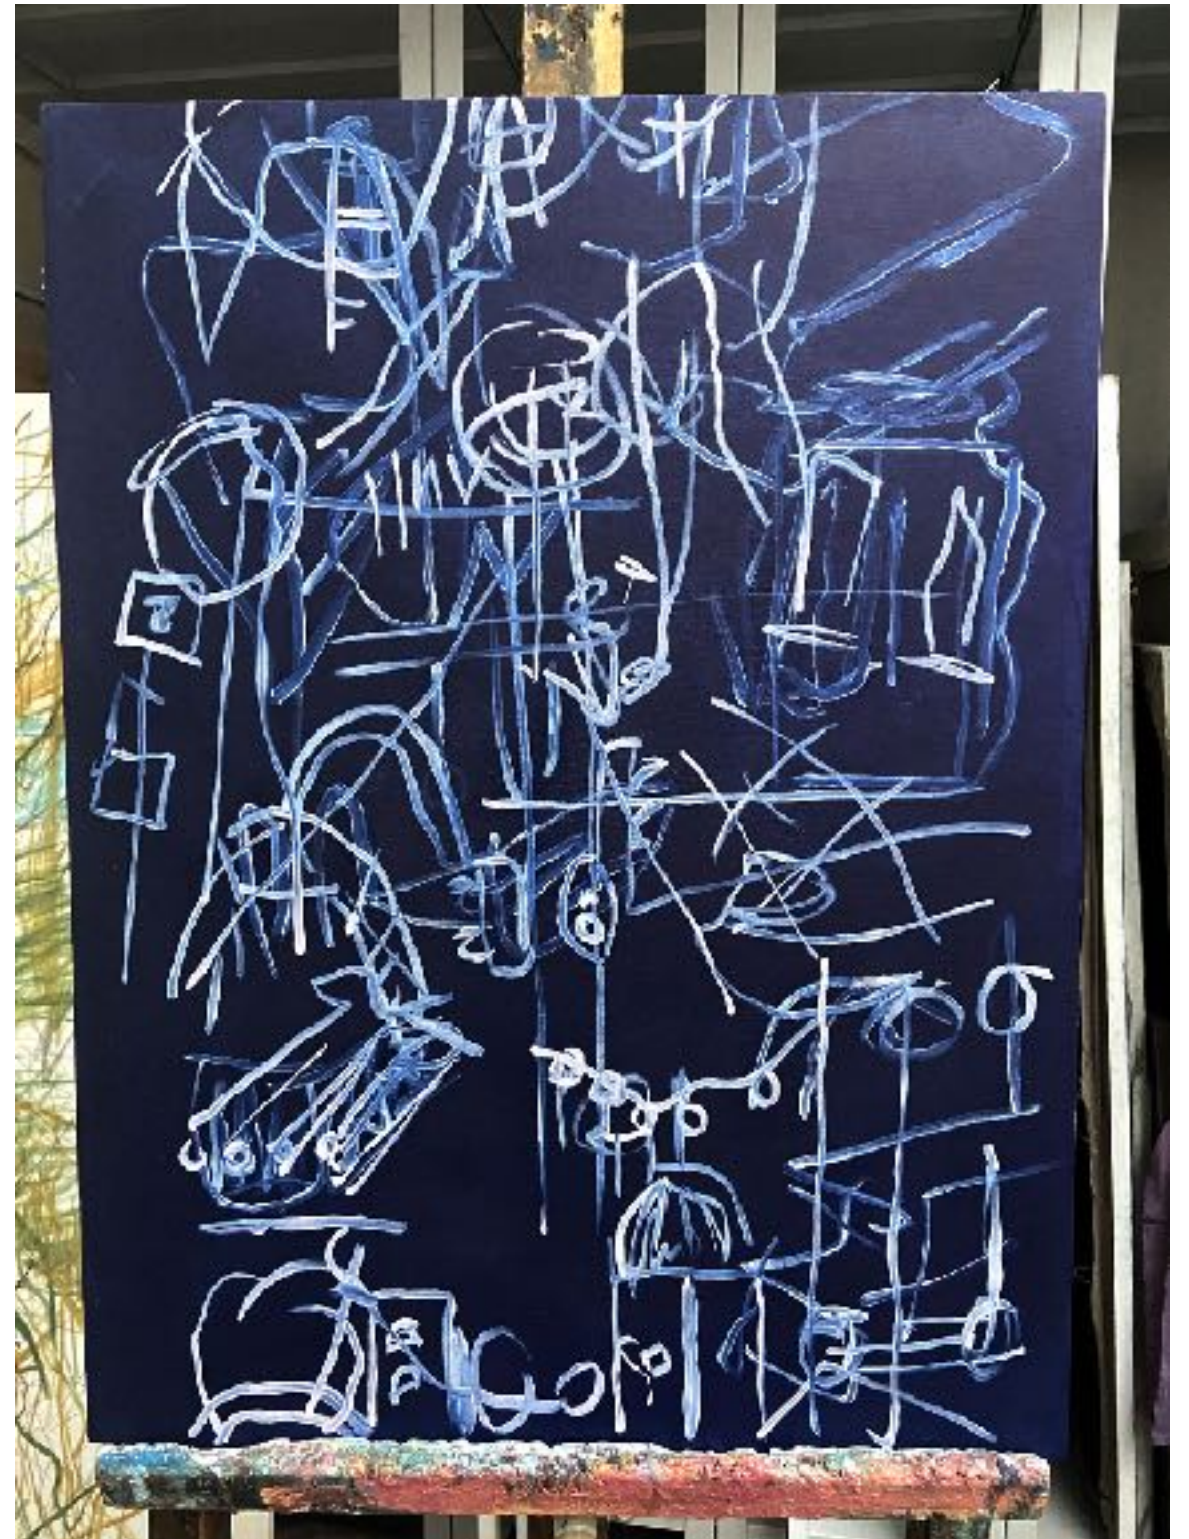

walkinginwhiledrawinginVilnius 2020

Drawing
and walking
in urban spaces

Testing different
methods like holding the
drawing machine in
different positions while
walking, different pencil
and paper.

Paintings, 2020

The Inner Life of ...my staircase 2021

Drawing two perspectives
of my staircase on
walking upstairs and
downstairs.

Drawing set spatial
references in each walk
to recreate each staircase
in Virtual Reality.

The Inner Life of...my staircase
