Sensory Mapping practice

Session 9 Timeline - May 23

The practice

1. **Place as it unfolds.** Focus on the visual elements around you in this moment: what do you see? What is happening? Describe everything like an ethnographer—objectively and without judgment.

2. **Place in the body.** Turn your attention away from what you see and toward what you feel, hear, smell. What sounds layer the space? What does the air carry? What textures or temperatures meet your skin? Let your hand move as you notice – don't draw things, draw the sensations themselves: pressure, rhythm, weight, warmth.
